Cable ties

HOOK & LOOP CABLE STRAP 25M ROLL

Aginode Ref: N100.100

- High quality self gripping cable tie
- Grey strap with orange Aginode logo
- 20mm width
- 25m roll

Application

Aginode highly recommends the use of Hook & Loop cable straps to bundle and tie both copper and optical fibre data cables.

Features and benefits

Hook & Loop straps enable quick and convenient fastening of cable bundles. Not only are they reusable multiple times but they also significantly reduce the strain on the cables and therefore avoid potential signal losses which may occur when using traditional cable fasteners.

Aginode Hook & Loop cable straps are 20mm wide and come in 25m rolls allowing custom lengths to be cut on site to accommodate varying sizes of cable bundles.

STANDARDS

ISO/IEC 11801
