# European Mounting Hardware for Essential Keystone

**EU STYLE ANGLED 45 X 45 MODULE 2 KEYSTONE WHITE**

**Aginode Ref:** N423.642

- Angled 45x45mm module with 2 apertures in Keystone format
- Accommodates Essential-6 and LANmark-6A Unscreened Keystone connectors
- Protective spring loaded shutters
- Compatible with Aginode EU style 45x45 frames
- Colour White

## STANDARDS

ISO/IEC 11801

## Design and Application

This EU style 45x45mm outlet module can accommodate two keystone connectors to support both the Essential-6 and the LANmark-6A Unscreened range. Its angled design allows a 45 degrees position of the connectors, ensuring that the cable bend radius is maintained, even in installations where depth is restricted.

The outlet module is glossy white and has protective spring-loaded shutters.

The 45x45mm module is compatible with Aginode EU style cover plates and with a wide range of 45x45mm frames available in the market.

## Installation

The Essential-6 or LANmark-6A unscreened keystone connectors can easily be inserted in the module by a simple "one-click" operation.

The modules are packed per box of 20 pcs.
