- Designed to accomodate 1 LANmark Snap-In connector
- One piece construction
- Spring loaded protective shutter
- Labelling window
- Supplied with set of labels
- Screws included
- Glossy white finish
- Also available in 2 and 4 port version

STANDARDS

ISO/IEC 11801

Application

This UK style wallplate is designed to accommodate one LANmark Snap-In connector. It has standard 86 x 86 mm UK dimensions.

A two and four port version are also available (N423.862 / N423.864) - please refer to the specific datasheets.

Design

Each port is equipped with a spring loaded shutter which protects installed RJ45 connectors against dust when no patch cord is inserted. The wallplate comes in glossy white finish and has a protective labelling window above the port.

The plastic material is UL 94V-0.

Installation

The LANmark Snap-In connector can be easily inserted in the wallplate with a simple one-click operation.

The wallplate is supplied with 2 screws for mounting on the wall or containment. A set of 2 white caps is included to cover the screws which enhances the appearance of the finished wall outlet.

The product is individually bagged and comes in boxes of 100 pcs.
