Patch Guides, Blank Panels & Cable Management

2HU UNIVERSAL PATCH GUIDE, BLACK

Aginode Ref: N102.127BK

- Allows storage and management of copper and fiber patch cords
- 2 HU allowing larger bending radius
- 8 cm depth
- Cover for tidy cabinet look
- Black paint finished metal

For a correctly managed installation, Aginode offers a full range of cable management accessories to complement our patch panel and cabinet range. The range is suitable for all Aginode Copper and Optical patch panels.

The new offering is Aginode branded to blend with other Aginode products used in a cabinet.

The cable management range is designed for all 19" cabinets. The range includes patch guides and cable guides.

STANDARDS

ISO/IEC 11801

Patch Guides

The Aginode patch guide range enables orderly patch cord storage. All the Aginode accessories are guaranteed to maintain the required bending radius for patch cords which in turn ensures superior data transmission for the installation. The paint finished metal accessories provide improved stability over plastic guides on the market.

The 1HU and 2HU universal patch guides are delivered with a front plate. The 8 cm depth provides for the bending radius and enough storage space for the patch cords. Two openings designed at the rear face improve the storage and entry possibilities for patch cords.

An alternative 1 HU 5- ring metal patch guide is offered. This accessory similarly allows for orderly patch cord management in any installation.

Cable Guide

The Aginode cable guide offers fast and reliable cable retention and grounding. The clip-on system is a proprietary Aginode design and improves the flexibility, solidity and the grounding of your installation.
