LANsense Fibre Patch Cords

- - Zusätzlicher Kupfer-Pin zur Port-Erkennung
- - OM3-Faser mit hoher Bandbreite
- - Verfügbar mit LC-Steckern

Das LC-LANSense-Patchkabel verwendet den Standard-LC-Duplex-Stecker, wodurch eine hohe Dichte an Glasfaserverbindungen erreicht werden kann. Das LC LANSense Kabel hat jedoch einen zusätzlichen Anschluss, um die Sensorfähigkeit der LANSense Produkte zu integrieren. Die LANSense-Patchkabel sind sowohl in OM4- als auch in OS2-Glasfasertypen mit hoher Bandbreite erhältlich und bieten somit ein umfassendes Sortiment an Patchkabeln für die Anbindung an die neuesten Netzwerkgeräte.
