Modular Patch Panels for Keystone Connectors

LANMARK PATCH PANEL 24 STAGGERED KEYSTONE BLACK

Aginode Ref: N521.6671BK

- Compatible with Aginode keystone connectors
- Designed for LANmark-6A UTP
- 24 staggered ports in 1U
- Tie-wrap strain relief
- Black finish

Application

Aginode LANmark staggered patch panel for keystone connectors is based on 19" frame dimensions and can accommodate up to 24 keystone connectors in 1U.

Design

The panel is specifically designed for use with Aginode LANmark-6A UTP solution, featuring a staggered port lay-out for optimised Alien Crosstalk performance when used for high speed applications such as 10GBASE-T.

Installation

The LANmark-6A keystone connectors can be easily latched in place without the need for a tool. They are also easy to remove from the panel when necessary.

The panel features rear cable management for tie-wraps to retain the cable and provide strain relief and is supplied with the necessary rack fixings.

STANDARDS

ISO/IEC 11801

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.
