

WLB-Max : Indoor Wall Box

The WLB box range is designed to manage the infrastructure of passive solutions, ensuring efficient management of fibers and connections in network environments. It provides optimized cable organization, ensuring reliable and secure deployment.

Description

The WLB-Max is a compact and efficient fiber management solution designed for passive infrastructure cabling and other indoor fiber networks. It ensures secure connectivity, high-density fiber management, and easy maintenance.

Key Features

- **Modular Design:** Designed for easy integration in LAN environments.
- **High-Capacity Termination:** Supports up to up to 26 SC adapters.
- **Secure Access:** 8 mm triangular key locking system.
- **Quick Installation & Maintenance:** Tool-free door dismantling and front-access patching.
- **Robust Build:** Designed for reliable long-term indoor operation.

Applications

- Passive fiber optic infrastructure networks(GPON & P2P, FTTO...cet)
- Wall-mounted **fiber distribution point** for structured cabling

Disponible Version

- **Standard :** Comes with SC/APC adapters, ready for custom configurations.

STANDARDS

Aginode specification

WLB-Max : Indoor Wall Box

CARACTÉRISTIQUES

Caractéristiques de construction

Entrée des câbles	From left
Couleur	Gris clair RAL 7035
Matériau	Polycarbonate

Caractéristiques dimensionnelles

Profondeur	150 mm
Hauteur (mm)	100 mm
Nombre de raccords	26
Largeur	450 mm

Caractéristiques d'utilisation

Raccord	SC/APC
Fermeture	Triangle
Rayon de courbure minimum en utilisation statique	15 mm
Température ambiante d'utilisation, plage	-25...70 °C
Conditionnement	Carton
