

I/O Module

IOPTION I/O DIGITAL 4XIN 2XOUT 230V

Aginode Ref: 88301623

I/O interface for LANactive iGigaSwitch 12xx and 16xx series.

LANactive Accessories

- Input Output Option for iGigaSwitch 12xx and 16xx series
- 2 output and 4 input contacts
- 24V DC Output Voltage

Optional I/O interface of iGigaSwitch 12xx and 16xx series allows a fast, simple and low-cost integration of non-IP based devices directly in the field - different sensors, controllers, buttons etc. In combination with the iGigaSwitch, the I/O Module offers extensive management functionalities with interactions, sending of messages as well as the activation of alarms.
