Supporting Kits

Aginode Fibre Trunking System provides a dedicated pathway for fibre optic cables and cords to protect them from accidental damage. The system offers a flexible, high-capacity solution for data centre containment which is easy to install and reconfigure to meet future needs.

Aginode FIBREROUTE provide various fixing and supporting kits to support installation method as wall mounting, ceiling hanging, under floor, rack mounting and other structures within data centers.

The mounting hardware kits are available for 120 systems and 240 systems.

STANDARDS

EN 50173-5
ISO/IEC 24764
