# @XS-BOX L/XL

- Building entry point for “one operator” network

**Extremely configurable**

More than 120 versions available, mountable in < 5 minutes. Here, presented with 2 24 OF blocks.

**Adaptable opening direction**

When installing the box, you decide the best opening direction (right, left or top)

**Tailor-made security**

3 locking levels to choose from: triangle lock, mechanical or electronic. Opening sensor and pole tilt control. Subscriber connection control with INFRABIRD TM

**#SmartConnection**

NFC and RFID capabilities give you traceability and cost savings throughout your supply chain and installation processes

**Front panel connections**

- The connections are all accessible on the front panel in order to manage connection/disconnection without the risk of neighbor damage
- The downward orientation prevents dust from entering and protects the technician from lasers

**24/48 OF modules**

- Modules can be added independently during a second deployment phase
- The investment is progressive
- The risks of defects are eliminated
- Installation of 24/48 OF modules < 1 minute
