

LANmark Zone Distribution Boxes

LANMARK ZD BOX 12 SNAP-IN WHITE

Aginode Ref: N521.600

- For use as consolidation point
- Compatible with all LANmark Snap-In connectors
- 12 numbered Snap-In ports with shutters
- Pre-perforated openings for cable entry
- Cable fixing features
- Supplied with earthing screw
- Multiple mounting facilities

Application

Designed for use as consolidation points, zone distribution boxes significantly improve the flexibility of desk locations in open office environments. They are particularly useful in offices where frequent relocation of outlets in the work area is required.

Design

This ZD box has 12 numbered ports with shutters and can accommodate all LANmark Snap-In connectors.

The box provides cable entry both from the rear and from underneath and offers tie-wrap strain relief. It is supplied with a self-adhesive foam strip for protection against dust entry.

Installation

The box is easy to install on walls, under raised floors or in ceiling voids, due to its multiple mounting features.

It is equipped with an earthing point and with fasteners to fix the lid to the base.

Mounting dimensions 12 port ZD Box
