

# LANsense Copper Patch Cords

## LANSENSE LATCH PROTECTOR WHITE 50X

### **Aginode Ref:** N880.LPWHI

- Latch protector for LANsense copper cords
- White
- Supplied as a bag of 50

The Aginode LANsense patchcord range is suitable for use in voice or data network installations. The 4 pair construction and robust RJ45 connectors provide for long term network reliability. The patchcords have an unobtrusive external probe built into the plug boot which mates with the sensors built into the patch panels. The patchcords can be supplied in different lengths and with different colour latch protectors to allow differentiation of services and workgroups.
