LANsense I/O Cables

LANSENSE I/O CABLE LSZH TYPE C REV 2 10M

Aginode Ref: N871.CIO010L

- I/O cables for analyser to panel connection

LANsense I/O cables are used to connect LANsense patch panels to the analyzers. Multiple patch zones can exist within a LANsense database. LANsense I/O cables are available in different lengths based on the size of a patch zone. All LANsense I/O cables have LSZH jacket.

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.
