LANmark Secure Lock Copper Keys

LANMARK SECURE LOCK COPPER PATCH CORD KEY

Aginode Ref: N1LA.KEY

- LANmark Secure Lock Copper Patch Cord Key

The new range of Lockable copper patch cords are designed to meet the needs for security of the cabling Infrastructure of Copper systems and your valuable IT assets.

Patch cords come preassembled with either two locking boots or one locking boot version. Once installed the cord is locked in place with the latch inaccessible. The cord can only be disconnected when the matching key is used to unlock the boot.

- The colour of the Key is Red for Secure lock Patch cords.
- This key is used to unlock both versions of the patch cords.
- Packaging: 1 bag of Key consists of 5 pcs
