LANmark-OF Secure Lock LC Port Blockers

- Compatible with Duplex LC Adapters.
- Dedicated key for removal
- Available in Red and Blue colours.

- An effective way to secure the network infrastructure by blocking out unused or unauthorized Duplex LC Adaptors.
- Port Blockers protect the hardware from dust and entry of harmful foreign objects.
- Port Blocker helps in securing connections.
- Provides security by ensuring no unauthorized connections are made
- To be used in data centres, financial services, health care, and other mission-critical networks.
- Installation is easy, and removal will not interfere or lead to the degradation of network performance.

STANDARDS

ISO/IEC 11801

The plastic material is UL 94V-2
