

Essential-6 Cable

- Unshielded construction
- Complies to the latest Category 6 standards
- Supports Class E applications up to 250 MHz.
- Central cross maintains geometry and performance

Application

The Aginode Essential-6 cables are manufactured and tested to the latest Category 6 specifications. They are compatible with the complete Essential-6 modular and PCB connectivity range. When the cable is installed in conjunction with Essential-6 outlets and patch panels, a 25 year Class E Link Certificate can be obtained from the Aginode website.

Performance

Aginode Essential-6 cables are compliant with the requirements of the International, European and American cable standards, including ISO/IEC 11801, IEC 61156-5, EN 50173, EN 50288 and TIA/EIA 568-C.2.

Installation

To support the correct set-up of hand held analysers for installation testing, the actual cable NVP value is given in the cable's print legend.

STANDARDS

ANSI/TIA-568-C.2
ISO/IEC 11801

Essential-6 Cable

CHARACTERISTICS

Construction characteristics

Outer sheath	PVC
Type of cable	U/UTP

Mechanical characteristics

Maximum operating pulling force	100 N
---------------------------------	-------

Usage characteristics

Range	essential-6
