

LANsense Fibre Patch Cords

LC DUPLEX LANSense PATCH CORD - OS2

Aginode Ref: N884.4LLY3

- Additional copper pin for port detection
- High bandwidth OS2 fibre
- Available with LC connectors

The LC LANSense patch cord uses the standard LC duplex connector, enabling high-density fiber connections to be achieved. The LC LANSense cord, however, has an over-boot to incorporate the sensing capability of the LANSense products. The LANSense patch cords are available in both high bandwidth OM4 and single-mode OS2 fibre types and so offer a comprehensive range of patch cords for interfacing with the latest network equipment.

STANDARDS

ISO/IEC 11801

LC Duplex LANsense Patch Cord - OS2

Characteristics

Construction characteristics

| | |
|------------------|--------|
| Colour | Yellow |
| Fiber optic type | OS2 |
| Connector type | LC |

Usage characteristics

| | |
|--------------------|-----------|
| Length | 3 m |
| Component function | Patchcord |
