

# 120 System

## FIBREROUTE 120MM(4.75 INCH) ELBOW COVER

**Aginode Ref:** N350.120FA11A

Aginode Fibre Trunking System provides a dedicated pathway for fibre optic cables and cords to protect them from accidental damage. The system offers a flexible, high-capacity solution for data centre containment which is easy to install and reconfigure to meet future needs.

- Pathway system designed for accommodation of data centre fibre cables
- Free of sharp edges
- Quick connect system with a wide range of fixtures and fittings
- Cover for 120mm Elbow
- Tough, flame retardant ABS material

The Aginode Fibre Trunking System provides a dedicated pathway through data centre spaces and IT facilities for routing fibre cables.

The rigid channel with matching cover protects fibre optic cables from damage.

All components of the system are made of tough, fire retardant materials.

The system components have a smooth inner surface to ensure a safe path for fibre optic cables and feature internal radius management to facilitate the maintenance of bend radii for cables and patch cords.

The Cover for the 120mm Elbow provides protection against dust and falling items.

All components of the system including the covers can be installed and uninstalled without special tools.

### STANDARDS

EN 50173-5  
ISO/IEC 24764  
UL 94 V0

# FIBREROUTE 120mm(4.75 inch) Elbow Cover

## Characteristics

### Construction characteristics

|          |        |
|----------|--------|
| Colour   | Yellow |
| Material | ABS    |

### Dimensional characteristics

|                        |         |
|------------------------|---------|
| Length                 | 2000 mm |
| Approximate net weight | 0.1 kg  |

### Usage characteristics

|                              |             |
|------------------------------|-------------|
| Operating temperature, range | -25...60 °C |
| Storage temperature, range   | -45...60 °C |
