

LANmark™ Class E System

Products

The following products must be used to qualify for a LANmark Class E System Warranty:

- Any Aginode LANmark-6 / 6A connectivity and cable products
- Any Aginode LANmark-7 / 7A connectivity and cable products

Applications

Aginode LANmark Class E systems are warranted to support:

Any current or future application designed to be supported by a Class E channel as defined below, including but not limited to:

- 10base-T Ethernet
- 100base-TX Fast Ethernet
- 1000base-T Gigabit Ethernet
- 1000base-TX Gigabit Ethernet
- 155Mbit ATM
- 1200Mbit ATM
- IEEE 802.3af (PoE)
- IEEE 802.3at (PoE+)

Applications are only warranted when Aginode LANmark patchcords are used.

Performance

Aginode LANmark Class E systems are guaranteed to exceed the following performance criteria: Class E Channel & Permanent Link and Category 6 mated component requirements as specified in :

ISO/IEC 11801-(1 to 6): 2017/COR1:2018

Channel performance is only warranted when Aginode LANmark patchcords are used and these have not been subjected to any damage.

Duration

LANmark Class E systems are warranted for 25 years from date of issue of Warranty certificate.

Exclusions

Exclusions relating to misuse, neglect, accidental damage, abuse and excessive wear and tear apply as detailed in the main Warranty Conditions.
