

LANsense Software

LANSENSE ANNUAL MAINTENANCE

Aginode Ref: N874.MAIN01

Annual Maintenance Service

The Annual Maintenance and support include:

- I. Access to the LANsense Support team.
- II. Free software upgrades and updates (at least one release a year)
- III. Ability to download bug fixing releases.
- IV. Online support through telephone calls and the Internet.

Software System Requirements

Server Software Requirements

- Microsoft Windows 2012 Server R2 (UK English) or above (Server 2008 also supported for existing customers)
- Microsoft SQL Server (Standard Edition) 2012 (UK English) or above (2008 also supported), appropriate licenses
- Microsoft .NET framework version 4.x
- Microsoft IIS (Internet Information Services.) version 7 and above
- Optional - VMWARE Workstation 15v Player only required for LANsense Active Discovery

Server Hardware Requirements

- Dedicated Server
- Quad Core 3.1Ghz or faster with Virtualization Technology (VT)
- 16Gb RAM
- Fast network connection. Gigabit preferred.
- 1TB disk space (Fast drives) (2Gb must be available always to allow for transaction files)

Remote Access preferable for support

The diagram illustrates two main capabilities of the software. The top section shows a smartphone and a tablet connected by a line, with the text 'Share your network documentation' below them. The bottom section shows two laptops connected by a line, with the text 'Map end-to-end circuits to locations' and 'Optimise your port utilisation' below them. Below the diagram, the word 'STANDARDS' is written in bold, followed by 'Aginode specification'.

STANDARDS

Aginode specification

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.
