Aginode Ref: N167.UCUN24B

UC optical fibre cables

- Provides full rodent protection
- Corrugated steel tape armour for crush and rodent protection
- Central gel-filled with PBT construction
- All fibre grades
- Black LSZH UV-resistant outer sheath – CPR (Dca -s2, d2, a1) rated
- Suitable for indoor and outdoor applications

The UC optical fibre cable from Aginode is specifically designed for installations where mechanical resistance, multimode bandwidth performance, and environmental durability are critical. Its gel-filled and corrugated steel armor provide robust protection in demanding indoor and outdoor conditions.

- **Armored Design**: Corrugated steel tape for excellent resistance to mechanical stress, crushing, and rodent attacks.
- **Loose Tube Construction**: Central PBT tube filled with thixotropic gel ensures long-term fibre stability.
- **Indoor & Outdoor Application**
- **High Performance OM4**: Optimized for high-speed multimode transmission over medium distances (50/125 µm).
- **Halogen-Free Flame Retardant Jacket**: Low emission of smoke and toxic gases; UV-resistant for extended durability.

The central tube contains up to 24 fibres, colour-coded for fast and reliable splicing.
